

FAIR SUSPENSION

Unfortunately, the evolution of the sanitary situation, which the city is experiencing today (21 October) caused by the Covid-19 and the forecasts for the coming days, force us to suspend all the shows of the third moment of this year's fair, the Trapezi Live, planned for 23-25 October.

We want to thank the support, involvement and commitment of everyone who has accompanied us on the path of the Trapezi 2020 Fair: artists, suppliers, technical staff, administrations, entities ... Thank you all for following us to the last moment.

We hope that the sanitary situation we are living in will soon be reversed and that in 2021 we will experience live art again: circus on stage and the festival atmosphere in the city.
